NEW BRITISH BATTLESHIP TO TRAVEL FORTY KNOTS AN HOUR -Heavy Firing At Sea Off Scarboro Reported--Germans Suffer Big Losses

NAVAL ACTIVITY IN THE NORTH SEA IS REPORTED

Britain Has No Definite News of Rumored Engageme 38.

Both France and Russia Make Gains Against Teutons.

(By Times Special Cable.)

London, April 12.—No official information yet has been vouchfeet concerning the maval engagement reported to have taken
that off the coast of Norway. While awaiting despits of this acinn the British public has been kept interested by the news of
combe of firing off Searborough, on the cast coast, the scene of the
most sensational of the German naval raids.

Prance continues to report progress in the Argone and beyond
the Mease. At the same time the French authorities admit that the
German counter-attacks have been exceedingly fierce, and that one
resulted in the recepture of a trench. At Engages the French have
not devanced beyond the positions captured by them April 6. Paris
admits, also, that the Germans have recovered some ground temporcity lost by them between Font-A Mousson and St. Minjel, but even
there the French claim to hold most of their gain.

The fighting in the Garpathians continues along a seventy-mile
frost, with apparently undiminished vigor, with Russis claiming to
have regulated a determined counter-offentive on the part of the
Austrians and the Germans. On the eastern flank the Russians are
drawing were to Usoke pass. If they carry this position, they will
command easy road to Hungary.
